A 5x5 grid with a green background and white grid lines. Several white rectangles are placed on the grid, and one rectangle in the center is red. The white rectangles are located at the following coordinates (row, column): (1, 2), (1, 4), (2, 5), (3, 3), (3, 4), (4, 1), (4, 2), (4, 3), (4, 4), (4, 5), (5, 1), (5, 2), (5, 3), (5, 4), (5, 5). The red rectangle is located at (3, 3).

A 5x5 grid with a green background and white grid lines. The grid contains several white rectangular blocks of varying sizes and orientations. One block, located in the center of the grid (row 3, column 3), is highlighted in red. The other blocks are white with black outlines. The blocks are arranged as follows: a 1x2 block at (1,2)-(1,3), a 1x1 block at (1,4), a 2x1 block at (2,4)-(3,4), a 1x2 block at (3,1)-(3,2), a 1x2 block at (3,3)-(3,4), a 2x1 block at (4,2)-(5,2), a 1x1 block at (4,4), and a 1x2 block at (5,4)-(5,5). The red block is a 1x2 block at (3,3)-(3,4).

A 5x5 grid with a green background and white grid lines. The grid contains several white rectangles of various sizes and orientations. A single red rectangle is located in the center of the grid, spanning the second and third columns and the third row. The white rectangles are positioned as follows: a vertical rectangle in the first column, rows 1-4; a vertical rectangle in the second column, rows 1-3; a horizontal rectangle in the third row, columns 3-5; a vertical rectangle in the third column, rows 2-4; a horizontal rectangle in the fourth row, columns 1-3; a horizontal rectangle in the fourth row, columns 3-5; a horizontal rectangle in the fifth row, columns 1-3; a horizontal rectangle in the fifth row, columns 3-5; and a vertical rectangle in the fifth column, rows 3-5.
